Refurbishment Work of the Concrete Pavement

Dear Members,

As part of the on-going upgrade of the Club grounds, the concrete pavement between the Club Office and the Sailing Centre, the alleyway outside the Office and pavement to the Toilets will be refurbished over the next three weeks. The work will require the existing pavement to be dug up and the area refurbished with new concrete so as to improve drainage and enhance the walking area with a smooth surface. Work will take place from Monday to Friday inclusive.

We apologise for the inconvenience and noise that will be caused to Members in the refurbishment work.

Thank you for your attention.
